PROFESSIONAL PROFILE

Aspiring Software Engineer and Master of IT candidate (Project Management) with 4+ years of part-time, university-concurrent development experience. Proficient in C#, .NET Core, and SQL Server. Currently seeking a CPT-eligible internship to apply backend expertise to large-scale systems in the Energy or Healthcare sectors. Eligible for immediate full-time CPT; no sponsorship required.

EDUCATION

Master of Science in Information Technology

Expected 2027

Indiana Wesleyan University | Focus: Project Management

Bachelor of Science in Software Engineering

Graduated Dec 2023

Hajvery University | Capstone: University Management System (C#, SQL Server)

TECHNICAL SKILLS

Languages: C#, Java, SQL, Dart, JavaScript

Web & Mobile: ASP.NET Core (MVC/Web API), Blazor, Entity Framework, Flutter

Databases/Tools: MS SQL Server, Azure SQL, Git, Docker, CI/CD, Postman

KEY PROJECTS

Enterprise SaaS CRM Platform

ASP.NET Core 8, C#, SQL Server

- * Architected a multi-tenant CRM system designed for scalability and high data volume.
- * Implemented N-Tier Architecture to separate business logic, enhancing maintainability.
- * Optimized SQL queries using Dapper, reducing reporting load times by 35%.
- * Designed secure RESTful APIs with JWT authentication for third-party integrations.

Cross-Platform Mobile Application

Flutter, Dart, REST APIs

- * Developed high-performance mobile apps for iOS/Android with real-time data sync.
- * Processed 5,000+ monthly transactions during beta testing with 99.9% uptime.

EXPERIENCE

Software Developer (Part-time / University-Concurrent)

Sep 2021 - Present

Turbo Solutions

- * Manage flexible development tasks alongside academic studies to support enterprise web application maintenance.
- * Execute data migration from legacy systems to modern SQL Server databases.
- * Support senior developers by documenting C# backend services and API endpoints.

CERTIFICATIONS

- * .NET Full Stack Developer Specialization (Board Infinity, 2024)
- * IT Leadership Professional (ServiceNow, 2024)
- * Android Mobile App Development (Meta, 2023)
- * Google Technical Support Fundamentals (2021)
